- LOLC FINANCE PLC
- SRI LANKA TELECOM
- DISTILLERIES COMPANY OF SRI LANKA PLC
- COMMERCIAL BANK OF CEYLON PLC
- CARGILLS (CEYLON) PLC
- MELSTACORP PLC
- SAMPATH BANK PLC

Highlights of the month

- The ASPI and S&P SL20 performed for the month of July 2024 by -6.08% and -9.0% respectively.
- Net foreign flows for the month amounted to LKR 2.97 Bn of inflows, an increase from the prior period.
- The market has witnessed decreased turnover for the period compared to the prior period.

 **Investment strategy:** AIA Sri Lanka maintains a prudent investment strategy for its investment portfolios, in line with its investment philosophy and guidelines as set out in the investment policy. The Company advocates a long-term investment strategy supporting long-term growth. The equity strategy is driven by in-depth research with emphasis on growth and sustainability of earnings whilst principles such as liquidity, solvency and corporate governance also play a significant role in stock selection.

Fixed income outlook

- The Central Bank of Sri Lanka (CBSL) held its 4th Monetary Policy Review in July. During this period, the Monetary Policy Board decided to reduce the Standing Lending Facility Rate (the rate at which CBSL lends to commercial banks) and the Standing Deposit Facility Rate (the rate at which commercial banks place their excess cash with CBSL) by 25 basis points (bps).
- Treasury rates across the yield curve saw a downward movement in July. The 364-day T-bill yield declined by 36 basis points, from 10.31% to 9.95% by the end of the month. Similarly, the weighted average rate for the 91-day T-bills declined by 93 basis points to 9.14%, and the 182-day T-bills declined by 85 basis points to 9.34%.
- Foreign investors continued to net sell LKR-denominated government securities in July, resulting in an outflow of LKR 10 billion. This further reduced foreign holdings from 0.37% to 0.31%, bringing the total net sales for the year to LKR 65.4 billion on a year-to-date basis.
- The Average Weighted Prime Lending Rate (AWPR) marginally increased to 8.81% by the end of July from 8.78% at the beginning of the month. The Average Weighted Fixed Deposit Rate decreased to 9.90% from 10.39% over the same period.
- Year-on-year inflation, as measured by the Colombo Consumer Price Index, marginally increased to 2.40% in July 2024 from 1.70% in June 2024. This rise was mainly due to the positive base effect experienced during July. Food inflation (Y-o-Y) rose to 1.5% in July 2024 from 1.4% in June 2024, while non-food inflation (Y-o-Y) increased to 2.8% in July 2024 from 1.8% in June 2024. Core inflation (Y-o-Y), which excludes volatile food, energy, and transport prices, remained unchanged at 4.4% in July 2024.

Equity outlook

- The Sri Lankan equity market experienced an overall bearish trend during July, driven by an unstable political climate and concerns over policy uncertainty. The All Share Price Index (ASPI) suffered a decline of 738 points, representing a 6.1% month-on-month (MoM) decrease, while the S&P SL 20 fell by 323 points, or 9% MoM. This decline was primarily driven by losses in key counters such as JKH PLC, SLT PLC, LOFC PLC, LOLC PLC, and Commercial Bank PLC.
- Investor activity decreased in July, with the average daily turnover reducing by 44% MoM to LKR 1 billion. A sector-wise overview indicates that the Capital Goods and Diversified Financials sectors were the primary drivers of the downward trend.
- Despite the overall decline, July saw the highest net foreign inflow for the year thus far, reaching LKR 3.5 billion. However, the overall market multiple marginally declined by 5.4% during the month, settling at 9.2x.

FREQUENTLY ASKED QUESTIONS

Where are AIA Unit Linked Funds invested?

The Unit Linked funds are invested in instruments specified in the policy documents i.e. government securities, debt securities and money market investments such as fixed deposits, etc, and in shares listed on the Colombo Stock Exchange. These investments are made within the parameters provided in the policy documents, in order to achieve the investment objective of each fund.

- **Equities:** Investment in shares listed on the Colombo Stock Exchange.
- **Debt Securities:** Investments in Treasury instruments, Corporate Debt instruments, repurchase agreements of Treasury instruments and Corporate Debt instruments of longer maturity tenor than those classified as Money Market investments.
- **Money Market investments:** Funds held as Corporate Debt instruments, overnight repurchase agreements of Treasury instruments, Corporate Debt instruments with a tenor of one day, investments in Treasury instruments and cash in bank current accounts.

Treasury instruments refers to instruments such as Treasury Bills and Treasury Bonds issued by the government of Sri Lanka. Corporate debt refers to debt instruments issued by financial institutions and companies.

How does AIA manage Unit Linked funds?

AIA maintains a prudent investment strategy for its investment portfolios, in line with its investment philosophy and guidelines, as set out in the Company's investment policy. The investments of each fund are carried out in line with the investment objectives of the respective fund. The Company advocates a long-term investment strategy supporting long-term growth. The equity strategy is driven by in-depth research with emphasis on growth and sustainability of earnings whilst principles such as liquidity, solvency and corporate governance also play a significant role in stock selection.

Why do unit prices of the Growth & Balanced Funds fluctuate in comparison to the other Unit Linked Funds?

The prices of all unit linked funds move in tandem with the price movements or market values of their underlying investments. The Growth & Balanced funds invest in shares listed on the Colombo Stock Exchange. As prices of shares can be volatile at times, the unit prices of Growth & Balanced funds too can move higher or lower in tandem with these movements in share prices.

Is the All Share Price Index (ASPI) or S&P20 movement comparable with AIA Growth & Balanced Funds Performance?

The Growth and Balance fund performance may differ from the performances of the ASPI and the S&P SL 20 stock indices due to the fund portfolios holding different stocks and different proportions of stocks when compared to those used in the computation of the indices. The ASPI measures the movement of share prices of all listed companies on the Colombo Stock Exchange based on market capitalization and the S&P SL 20 measures the movement of share prices of 20 of the leading companies selected and rebased on certain criteria including market capitalisation.

Terms and Conditions apply

For more information, please call AIA Insurance on
011 2 310 310 or visit www.aialife.com.lk

▪ What are the Investment Strategies mentioned in the Policy Document* ?

Depending on the policy you have purchased, at the date of commencement the policy owner selects the investment strategy out of the four available; namely Aggressive, Moderate, Cautious and Advanced. Aggressive, Moderate and Cautious strategies have their funds allocated and switched at predetermined milestones depending on the policy term. Policy owners can switch fund strategies on written request during the policy period subject to conditions. Policy owners with Advanced investment strategy are responsible for determining the allocation and switching throughout the lifetime of the policy.

▪ What are Unit switches and amendment of Regular Premium Allocation Proportions?

Depending on the policy you have purchased, your Investment Linked Long Term Insurance Policy allows you to be in control of your investments. Options such as Unit switches* and amendment of Regular Premium Allocation Proportions* may be available to you, so that you have total control over your long term investment.

- **Unit switches:** If you request to switch units from one unit linked fund to another, the Company will cancel units of equal amount from the fund from which the units are to be switched from at the Unit price of that fund prevailing on the day and after deduction of switching charge, if any, and the funds so generated will be used to create units in the fund in which the amount is to be switched to at the Unit price of that fund prevailing on the day. Note that the unit switches are not permitted into or out of the Protected Fund and Stable Money Market Fund.
- **Amendment of Regular Premium Allocation Proportions:** At the written request of the Policy Owner, the Company will amend the Allocation Proportion whereafter the previous Allocation Proportion will become ineffective, and the amended Allocation Proportion will be applicable to all future Basic Premiums received from the date of the Company's acceptance of the request. Note that the amendment of allocation proportions is not permitted into or out of the Stable Money Market Fund.

▪ How often can Unit switches and Amendment of Allocation Proportions be executed?

- There is no limitation on frequency of Unit switches*
- The Company will only allow two (2) requests for Amendment of the Allocation Proportion within any Policy Year*
- The relevant applicable charges will be applied as stipulated in the Policy Document

▪ How can we get information on AIA Unit Linked Funds performance?

- Visit AIA Sri Lanka corporate website to view 'AIA Investor' for fund performance updates and details: <https://www.aialife.com.lk/en/help-support/our-unit-linked-fund-performance.html>.
- Our new and improved AIA Customer Portal is accessible in all three languages. Simply visit our AIA corporate website and register for free and access your policy details from the comfort of your own home, at any time (aialife.com.lk). **Accessing unit price updates, policy information and receiving real-time updates are the benefits of availing the customer portal.**
- If you wish to receive the daily unit prices via SMS, kindly contact us on our hotline or via the customer portal and we will make necessary arrangements for you to receive the daily SMS. We would also appreciate if you could notify us of any changes to your contact details.
