# Market Update: Interest Rates

We use the 364-day T-Bill as an indicator of how interest rates move

**364-day T-bill: Since 01 Jan 2015**

Note: Past performance is not an indication of future performance

**364-day T-bill: Since 01 Jan 2021**

Note: Past performance is not an indication of future performance

**Major events during the month**

- CBSL maintains the SDFR and the SLFR of the Central Bank at 8.25% and 9.25%, respectively.
- As per the GDP estimates published by the Department of Census and Statistics (DCS), the economy is estimated to have grown by 4.7 per cent (year-on-year) in Q2 2024, following an expansion of 5.3 per cent (year-on-year) recorded in Q1 2024.
- Market lending interest rates continued to decline in line with the current accommodative monetary policy stance. Along with this decline, credit to the private sector by Licensed Commercial Banks (LCBs) has expanded notably since May 2024.

**Inflation: Since 01 Jan 2015**

# Market Update: Stock Market

**ASPI Movement: Since 01 Jan 2015**

**ASPI Movement: Since 01 Jan 2021**

**S&P SL Movement: Since 01 Jan 2015**

**S&P SL Movement: Since 01 Jan 2021**

Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024**
ASPI	7,299	6,894	6,228	6,369	6,052	6,129	6,774	12,226	8,490	10,654	11,855

S&P SL 20 growth for the month	-0.32%	12.91%
Total market turnover (LKR Millions)	14,776	31,416
Market Capitalization (LKR Billions)	4,320	4,381
PE Ratio (times)	8.68x	8.02x

### 10 Companies with highest market

#### Capitalisation on the CSE as of 30 September 2024

- JOHN KEELLS HOLDINGS PLC
- CEYLON TOBACCO COMPANY PLC
- LOLC HOLDINGS PLC
- LOLC FINANCE PLC
- COMMERCIAL BANK OF CEYLON PLC
- DISTILLERIES COMPANY OF SRI LANKA PLC
- SRI LANKA TELECOM
- MELSTACORP PLC
- HATTON NATIONAL BANK PLC
- CARGILLS (CEYLON) PLC

### Highlights of the month

- The ASPI and S&P SL20 performed for the month of September 2024 by 9.07% and 12.91%, respectively.
- Net foreign flows for the month amounted to LKR 638.07 Mn of outflows, a decrease from the prior period.
- The market has witnessed increased turnover for the period compared to the prior period.

 **Investment strategy:** AIA Sri Lanka maintains a prudent investment strategy for its investment portfolios, in line with its investment philosophy and guidelines as set out in the investment policy. The Company advocates a long-term investment strategy supporting long-term growth. The equity strategy is driven by in-depth research with emphasis on growth and sustainability of earnings whilst principles such as liquidity, solvency and corporate governance also play a significant role in stock selection.

### Fixed income outlook

- In the 5th monetary policy review held for 2024 during the month of September, the central bank of Sri Lanka decided to maintain policy rates. The Standing Lending Facility Rate (the rate CBSL lends to commercial banks) was maintained at 9.25% and the Standing Deposit Facility Rate (the rate which commercial banks place their excess cash with CBSL) was maintained at 8.25% during the month.
- Treasury bill rates increased during September across all tenures, with the benchmark 364-day T-bill yield marginally increasing by 4 basis points to 10.05% from 10.01% in August 2024. In contrast, the weighted average rates for the 91-day and 182-day T-bills surged significantly, rising by 100 basis points to 10.49% and 88 basis points to 10.72%, respectively. This sharp increase was primarily due to the control of the 364-day T-bill rates, with most of the funds raised being shifted to the shorter tenures.
- Foreign investors remained as net sellers in LKR denominated government securities during September recording an outflow of LKR 2.7 billion. As a result, the foreign holding reduced to 0.23% of the total outstanding government securities from 0.25% last month. Thus, foreign investors were net sellers of LKR 78.0 billion for 2024 on a Year-to-date basis.
- The Average Weighted Prime Lending Rate (AWPR) increased by 19 basis points to 9.32% by the end of September from 9.13% from the preceding month. The Average Weighted Fixed Deposit Rate decreased from 9.67% to 9.46 over the same period.
- The year-on-year inflation, as measured by the Colombo Consumer Price Index moved to negative territory recording a deflation figure of -0.5% for September 2024 compared to 0.5% recorded in August 2024. A combination of falling food & fuel prices and lower water & electricity tariffs contributed to this decrease in the CCPI. Both Food inflation (Y-o-Y) & Non-Food inflation (Y-o-Y) declined in September 2024, with a figure of -0.3% observed for Food inflation (compared 0.8% in August 2024) & a figure of -0.5% observed for Non-Food inflation (compared to 0.4% in August 2024).

### Equity outlook

- The Sri Lankan equity market exhibited a strong bullish movement due to newfound confidence after prolonged uncertainties due to political instability concerns. The All Share price Index (ASPI) increased by a notable 985 points which was a 9% increase from the previous month, whilst the more liquid S&P increased even further by 12.9%. The primary sectors that drove the upward movement during the month of September in the Sri Lankan equity market were the Capital Goods, Diversified Financials and the Banking sectors respectively. The main counters that contributed the most towards the upward movement during the month of September were LOLC Finance, John Keells Holdings, LOLC Holdings and Commercial Bank respectively.
- In September, the Colombo Stock Exchange recorded a net foreign outflow of LKR 638 million, marking a continuation of the trend of foreign exits from the local equity market. Despite this, the period saw a notable surge in investor activity, reflecting increased confidence and participation from domestic players. The average daily turnover during the month soared by 135% compared to August, reaching LKR 1.6 billion, a clear indication of heightened trading volumes and market engagement.
- Additionally, the overall market multiples witnessed a slight improvement, contributing to a more positive market outlook. The price-to-earnings (P/E) ratio, inched upwards to 8.02, signaling a modest rebound in investor sentiment. September's performance showcases a resilient market environment, driven primarily by domestic investors, despite the ongoing foreign outflows.

## FREQUENTLY ASKED QUESTIONS

### Where are AIA Unit Linked Funds invested?

The Unit Linked funds are invested in instruments specified in the policy documents i.e. government securities, debt securities and money market investments such as fixed deposits, etc, and in shares listed on the Colombo Stock Exchange. These investments are made within the parameters provided in the policy documents, in order to achieve the investment objective of each fund.

- **Equities:** Investment in shares listed on the Colombo Stock Exchange.
- **Debt Securities:** Investments in Treasury instruments, Corporate Debt instruments, repurchase agreements of Treasury instruments and Corporate Debt instruments of longer maturity tenor than those classified as Money Market investments.
- **Money Market investments:** Funds held as Corporate Debt instruments, overnight repurchase agreements of Treasury instruments, Corporate Debt instruments with a tenor of one day, investments in Treasury instruments and cash in bank current accounts.

Treasury instruments refers to instruments such as Treasury Bills and Treasury Bonds issued by the government of Sri Lanka. Corporate debt refers to debt instruments issued by financial institutions and companies.

### How does AIA manage Unit Linked funds?

AIA maintains a prudent investment strategy for its investment portfolios, in line with its investment philosophy and guidelines, as set out in the Company's investment policy. The investments of each fund are carried out in line with the investment objectives of the respective fund. The Company advocates a long-term investment strategy supporting long-term growth. The equity strategy is driven by in-depth research with emphasis on growth and sustainability of earnings whilst principles such as liquidity, solvency and corporate governance also play a significant role in stock selection.

### Why do unit prices of the Growth & Balanced Funds fluctuate in comparison to the other Unit Linked Funds?

The prices of all unit linked funds move in tandem with the price movements or market values of their underlying investments. The Growth & Balanced funds invest in shares listed on the Colombo Stock Exchange. As prices of shares can be volatile at times, the unit prices of Growth & Balanced funds too can move higher or lower in tandem with these movements in share prices.

### Is the All Share Price Index (ASPI) or S&P20 movement comparable with AIA Growth & Balanced Funds Performance?

The Growth and Balance fund performance may differ from the performances of the ASPI and the S&P SL 20 stock indices due to the fund portfolios holding different stocks and different proportions of stocks when compared to those used in the computation of the indices. The ASPI measures the movement of share prices of all listed companies on the Colombo Stock Exchange based on market capitalization and the S&P SL 20 measures the movement of share prices of 20 of the leading companies selected and rebased on certain criteria including market capitalisation.

## ▪ What are the Investment Strategies mentioned in the Policy Document\* ?

Depending on the policy you have purchased, at the date of commencement the policy owner selects the investment strategy out of the four available; namely Aggressive, Moderate, Cautious and Advanced. Aggressive, Moderate and Cautious strategies have their funds allocated and switched at predetermined milestones depending on the policy term. Policy owners can switch fund strategies on written request during the policy period subject to conditions. Policy owners with Advanced investment strategy are responsible for determining the allocation and switching throughout the lifetime of the policy.

## ▪ What are Unit switches and amendment of Regular Premium Allocation Proportions?

Depending on the policy you have purchased, your Investment Linked Long Term Insurance Policy allows you to be in control of your investments. Options such as Unit switches\* and amendment of Regular Premium Allocation Proportions\* may be available to you, so that you have total control over your long term investment.

- **Unit switches:** If you request to switch units from one unit linked fund to another, the Company will cancel units of equal amount from the fund from which the units are to be switched from at the Unit price of that fund prevailing on the day and after deduction of switching charge, if any, and the funds so generated will be used to create units in the fund in which the amount is to be switched to at the Unit price of that fund prevailing on the day. Note that the unit switches are not permitted into or out of the Protected Fund and Stable Money Market Fund.
- **Amendment of Regular Premium Allocation Proportions:** At the written request of the Policy Owner, the Company will amend the Allocation Proportion whereafter the previous Allocation Proportion will become ineffective, and the amended Allocation Proportion will be applicable to all future Basic Premiums received from the date of the Company's acceptance of the request. Note that the amendment of allocation proportions is not permitted into or out of the Stable Money Market Fund.

## ▪ How often can Unit switches and Amendment of Allocation Proportions be executed?

- There is no limitation on frequency of Unit switches\*
- The Company will only allow two (2) requests for Amendment of the Allocation Proportion within any Policy Year\*
- The relevant applicable charges will be applied as stipulated in the Policy Document

## ▪ How can we get information on AIA Unit Linked Funds performance?

- Visit AIA Sri Lanka corporate website to view 'AIA Investor' for fund performance updates and details: <https://www.aialife.com.lk/en/help-support/our-unit-linked-fund-performance.html>.
- Our new and improved AIA Customer Portal is accessible in all three languages. Simply visit our AIA corporate website and register for free and access your policy details from the comfort of your own home, at any time ([aialife.com.lk](http://aialife.com.lk)). **Accessing unit price updates, policy information and receiving real-time updates are the benefits of availing the customer portal.**
- If you wish to receive the daily unit prices via SMS, kindly contact us on our hotline or via the customer portal and we will make necessary arrangements for you to receive the daily SMS. We would also appreciate if you could notify us of any changes to your contact details.
