Market Update: Interest Rates

We use the 364-day T- Bill as an indicator of how interest rates move

364-day T-bill: Since 01 Jan 2015

Note: Past performance is not an indication of future performance

364-day T-bill: Since 01 Jan 2021

Note: Past performance is not an indication of future performance

Major events during the month

- CBSL decided to maintain the SDFR and the SLFR of the Central Bank at 8.50% and 9.50%, respectively.
- CCPI showed some uptick to record 0.94 per cent in May 2024 compared to 0.9 per cent in March 2024, mainly due to an acceleration in non-food inflation.
- The overall market interest rate structure has adjusted downwards in response to the monetary policy easing measures implemented thus far. The yields on Government securities continued to decline, further aligning with the current level of policy interest rates.

Inflation: Since 01 Jan 2015

Market Update: Stock Market

ASPI Movement: Since 01 Jan 2015

ASPI Movement: Since 01 Jan 2021

S&P SL Movement: Since 01 Jan 2015

- DISTILLERIES COMPANY OF SRI LANKA PLC
- MELSTACORP PLC
- CARGILLS (CEYLON) PLC
- SAMPATH BANK PLC

Highlights of the month

- The ASPI and S&P SL20 performed for the month of May 2024 by -2.07% and -3.28% respectively.
- Net foreign flows for the month amounted to LKR 94 Mn of outflows, an increase from the prior period.
- The market has witnessed declined in turnover for the period compared to the prior period.

 **Investment strategy:** AIA Sri Lanka maintains a prudent investment strategy for its investment portfolios, in line with its investment philosophy and guidelines as set out in the investment policy. The Company advocates a long-term investment strategy supporting long-term growth. The equity strategy is driven by in-depth research with emphasis on growth and sustainability of earnings whilst principles such as liquidity, solvency and corporate governance also play a significant role in stock selection.

Fixed income outlook

- During the 3rd monetary policy review for 2024 held on the 27th of May, the central bank of Sri Lanka opted to keep policy rates unchanged. The Standing Lending Facility Rate (the rate CBSL lends to commercial banks) remained at 9.50% and the Standing Deposit Facility Rate (the rate which commercial banks place their excess cash with CBSL) remained at 8.50% during the month.
- In May 2024, Sri Lanka's yield curve witnessed significant declines across all tenures. Notably, the benchmark 364-day T-bill yield dropped by 103 basis points, falling from 10.21% in April to 9.18%. Similarly, the weighted average T-bill rates for the 91-day and 182-day durations declined by 128 basis points (to 8.62%) and 104 basis points (to 9.04%), respectively.
- Foreign investors continued to be net sellers in LKR-denominated government securities during the month of May. The outflow amounted to LKR 13.3 billion, resulting in foreign holdings reducing to 0.43% of the total outstanding government securities. This figure represents a decrease from the 0.52% recorded in the preceding month. Overall, foreign investors were net sellers of LKR 45.9 billion for the year 2024.
- The Average Weighted Prime Lending Rate (AWPR), which stood at 10.15% at the beginning of the month, declined to 9.36% by month-end. Similarly, the Average Weighted Fixed Deposit Rate, initially at 12.12%, decreased to 11.36% reflecting the dynamic interest rate environment during the month of May.
- The Year on Year inflation in May measured by the Colombo Consumer Price Index declined to 0.9% matching the rate record in March which increased to 1.5% in April. Non-food inflation increased to 1.3% during the same period, up from the 0.9% recorded in April 2024. Meanwhile, food inflation remained unchanged at 0.0%, contrasting with the 2.9% food inflation rate observed in April 2024. Despite some upside risks, inflation is likely to be below the target level of 5 per cent in the near term as per CBSL data.

Equity outlook

- The equity market momentum turned to negative during the month of May 2024, with both ASPI and S&PSL20 indicating negative gains of 1.66% & 3.13% respectively during the month. LOLC Finance PLC, Commercial Bank PLC, SLT PLC, Dialog PLC and Ceylon Tobacco PLC were the top contributors to the negative market momentum for the month, while the same counters contributed to ~59% of the index degrowth.
- The equity momentum remained positive in April 2024, with both the ASPI and S&P SL20 indicating gains of 8.03% and 11.22% respectively during the month. Commercial Bank PLC, HNB Bank PLC, LOLC PLC, and JKH PLC were the top contributors to the ASPI index movement, accounting for 33.4% of the index movement for the month.
- Average daily turnovers remained above LKR 1.8billion levels throughout the month, which is slightly lower amount compared to previous months (LKR 2.7Bn). The overall market multiple decreased by ~6% and remained around 10.02x at the end of the month. The market experienced a slowdown within the month due to the fears of having a snap general election before the presidential elections. However, this uncertainty faded away due to various clarification provided by the President (RW) and related parties.
- Net foreign outflows during the month remained negative at LKR 175 million, but there was some healthy net foreign buying activity in the first few days of the month.

FREQUENTLY ASKED QUESTIONS

Where are AIA Unit Linked Funds invested?

The Unit Linked funds are invested in instruments specified in the policy documents i.e. government securities, debt securities and money market investments such as fixed deposits, etc, and in shares listed on the Colombo Stock Exchange. These investments are made within the parameters provided in the policy documents, in order to achieve the investment objective of each fund.

- **Equities:** Investment in shares listed on the Colombo Stock Exchange.
- **Debt Securities:** Investments in Treasury instruments, Corporate Debt instruments, repurchase agreements of Treasury instruments and Corporate Debt instruments of longer maturity tenor than those classified as Money Market investments.
- **Money Market investments:** Funds held as Corporate Debt instruments, overnight repurchase agreements of Treasury instruments, Corporate Debt instruments with a tenor of one day, investments in Treasury instruments and cash in bank current accounts.

Treasury instruments refers to instruments such as Treasury Bills and Treasury Bonds issued by the government of Sri Lanka. Corporate debt refers to debt instruments issued by financial institutions and companies.

How does AIA manage Unit Linked funds?

AIA maintains a prudent investment strategy for its investment portfolios, in line with its investment philosophy and guidelines, as set out in the Company's investment policy. The investments of each fund are carried out in line with the investment objectives of the respective fund. The Company advocates a long-term investment strategy supporting long-term growth. The equity strategy is driven by in-depth research with emphasis on growth and sustainability of earnings whilst principles such as liquidity, solvency and corporate governance also play a significant role in stock selection.

Why do unit prices of the Growth & Balanced Funds fluctuate in comparison to the other Unit Linked Funds?

The prices of all unit linked funds move in tandem with the price movements or market values of their underlying investments. The Growth & Balanced funds invest in shares listed on the Colombo Stock Exchange. As prices of shares can be volatile at times, the unit prices of Growth & Balanced funds too can move higher or lower in tandem with these movements in share prices.

Is the All Share Price Index (ASPI) or S&P20 movement comparable with AIA Growth & Balanced Funds Performance?

The Growth and Balance fund performance may differ from the performances of the ASPI and the S&P SL 20 stock indices due to the fund portfolios holding different stocks and different proportions of stocks when compared to those used in the computation of the indices. The ASPI measures the movement of share prices of all listed companies on the Colombo Stock Exchange based on market capitalization and the S&P SL 20 measures the movement of share prices of 20 of the leading companies selected and rebased on certain criteria including market capitalisation.

*Subject to Policy conditions
Terms and Conditions apply

For more information, please call AIA Insurance on
011 2 310 310 or visit www.aialife.com.lk

▪ What are the Investment Strategies mentioned in the Policy Document* ?

Depending on the policy you have purchased, at the date of commencement the policy owner selects the investment strategy out of the four available; namely Aggressive, Moderate, Cautious and Advanced. Aggressive, Moderate and Cautious strategies have their funds allocated and switched at predetermined milestones depending on the policy term. Policy owners can switch fund strategies on written request during the policy period subject to conditions. Policy owners with Advanced investment strategy are responsible for determining the allocation and switching throughout the lifetime of the policy.

▪ What are Unit switches and amendment of Regular Premium Allocation Proportions?

Depending on the policy you have purchased, your Investment Linked Long Term Insurance Policy allows you to be in control of your investments. Options such as Unit switches* and amendment of Regular Premium Allocation Proportions* may be available to you, so that you have total control over your long term investment.

- **Unit switches:** If you request to switch units from one unit linked fund to another, the Company will cancel units of equal amount from the fund from which the units are to be switched from at the Unit price of that fund prevailing on the day and after deduction of switching charge, if any, and the funds so generated will be used to create units in the fund in which the amount is to be switched to at the Unit price of that fund prevailing on the day. Note that the unit switches are not permitted into or out of the Protected Fund and Stable Money Market Fund.
- **Amendment of Regular Premium Allocation Proportions:** At the written request of the Policy Owner, the Company will amend the Allocation Proportion whereafter the previous Allocation Proportion will become ineffective, and the amended Allocation Proportion will be applicable to all future Basic Premiums received from the date of the Company's acceptance of the request. Note that the amendment of allocation proportions is not permitted into or out of the Stable Money Market Fund.

▪ How often can Unit switches and Amendment of Allocation Proportions be executed?

- There is no limitation on frequency of Unit switches*
- The Company will only allow two (2) requests for Amendment of the Allocation Proportion within any Policy Year*
- The relevant applicable charges will be applied as stipulated in the Policy Document

▪ How can we get information on AIA Unit Linked Funds performance?

- Visit AIA Sri Lanka corporate website to view 'AIA Investor' for fund performance updates and details: <https://www.aialife.com.lk/en/help-support/our-unit-linked-fund-performance.html>.
- Our new and improved AIA Customer Portal is accessible in all three languages. Simply visit our AIA corporate website and register for free and access your policy details from the comfort of your own home, at any time (aialife.com.lk). **Accessing unit price updates, policy information and receiving real-time updates are the benefits of availing the customer portal.**
- If you wish to receive the daily unit prices via SMS, kindly contact us on our hotline or via the customer portal and we will make necessary arrangements for you to receive the daily SMS. We would also appreciate if you could notify us of any changes to your contact details.
