BETTER LIVES**

# This journey we call life has many different milestones and each of us are at a different stage.

Our experiences, our needs, our dreams and aspirations are all different. Some of us are young and carefree with hopes of adventure ahead while others are about to commit to a partner for life. Some might be preparing to welcome a bundle of joy into the family and others, excited about the retirement they've dreamt of. Our needs and expectations differ depending on what chapter we are in, in our book of life.

## Life Stages

But whatever stage we are at, there is one thing that is common and constant to almost everybody, our family. People we love and cherish and want nothing but the best for. It might be our parents, our children, our spouse, but we all have a family that depends on us to take care of them.

Whatever life stage you're at, your family should stay protected for the eventuality that you are no more. They should be financially secure to be able to continue the lifestyle they are used to even in your absence.
