# WHETHER YOU LIKE IT OR NOT, WE ALL HAVE TO FACE OUR RETIREMENT...

We all spend around 40 years of our life working. Some are employed and some are running their own business. We are physically strong during these 40 years of our work life and the happiest because we can earn an income. At the same time, our dream is to live the same life even during our retirement life.

**But it may be too late if you start thinking about your retirement life at the end of your work life.**

But, the reality of retirement in Sri Lanka is not good. The statistics show that Sri Lankans are not well prepared for their retirement.

Sri Lanka is ranked as No. 54 in Comfortable Retirement Ranking Index out of 73 countries.

Almost 50% of retirees don't have a pension income.

85% of the population between the ages of 20 and 59 are not covered by any pension scheme (Private Sector).

Only around 19% of the employed population have a government backed pension scheme.
